

SAYED NADA

FULL-STACK / FRONTEND DEVELOPER

✉ sayedmahmouda00@gmail.com ☎ +20 120 662 0678 📍 Ismailia, Egypt

🌐 LinkedIn 🐙 GitHub 📁 Portfolio

PROFESSIONAL SUMMARY

Innovative Full-Stack Developer and UI/UX Designer with a strong foundation in building high-performance, scalable web and cross-platform mobile applications. Eager to bridge the gap between robust database architecture and intuitive frontend design. Proven track record in integrating AI solutions to deliver seamless, context-aware user experiences while leveraging technical problem-solving skills in a dynamic development environment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, C++, PHP, SQL

Frameworks & Libraries: React Native, Expo, React, Angular, Node.js, Express.js, Next.js, Three.js (React Three Fiber), Tailwind CSS

Database & Cloud: PostgreSQL, MongoDB, Firebase (Auth, Firestore, Hosting), Supabase, Prisma ORM, SQLite, MySQL

Design & UI/UX: Figma (Prototyping, Wireframing, Design Systems), User Flow Design

Tools & Workflow: Git, GitHub, VS Code, npm, Command Line, Glassmorphism design framework

Infrastructure: Vercel, Netlify, Render, Hugging Face

Soft Skills: Problem-solving, Teamwork, Leadership, Time management, Adaptability, Communication

KEY PROJECTS

AquaSmart (Graduation Project) - AI-Powered Aquaculture Monitoring System

September 2025 - Present

Tech Stack: *React, React Native (Expo), Firebase, Node.js, Gemini AI, TensorFlow Lite, Python, Tailwind CSS*

- Engineered a responsive telemetry web dashboard and cross-platform mobile application to monitor water quality parameters (pH, temperature, salinity) in real time.
- Simulated a software-based IoT simulation layer using Python scripts to accurately model sensor data and ESP32 behavior in lieu of physical hardware.
- Integrated the Google Gemini API alongside TensorFlow Lite models to provide an intelligent, context-aware chatbot offering expert agricultural advice and threat recovery suggestions.
- Secured user authentication with Firebase Auth alongside real-time updates via Firestore database listeners.
- Deployed the frontend architecture to Vercel and successfully hosted the Python-based backend and AI services on Hugging Face Spaces.
- Live Demo:** aquasmart-ai.vercel.app.

Moodle Calendar Sync & Course Matcher

January 2026

Tech Stack: *JavaScript, Vercel Serverless, Tailwind CSS*

- Constructed a student productivity tool for Sinai University to scrape, parse, and synchronize Moodle homework assignments, lectures, and exams.
- Wrote serverless proxy functions on Vercel to bypass CORS security constraints and securely manage asynchronous API calls.
- Utilized local browser cache synchronization (localStorage) to guarantee instant, offline-capable calendar rendering.
- Live Demo:** su-it-guide.vercel.app.

Skill Swap Hub

April 2026

Tech Stack: SQL, Figma, React, Node.js

- Modelled a comprehensive relational database architecture using SQL and Crow's Foot notation, incorporating ERD diagrams for a peer-to-peer student skill matchmaking system.
- Created comprehensive web design systems, responsive grid layouts, and interactive UI mockups to streamline student onboarding.

Personal Portfolio Website

March 2026

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Three.js, Vercel

- Formulated a highly responsive, performant personal portfolio leveraging a modern glassmorphism design system to showcase technical projects.
- Programmed interactive 3D backgrounds and animated floating geometries using Three.js and custom CSS keyframes.
- Established a dynamic data population system using vanilla JavaScript to seamlessly render projects and skills from a centralized data structure.
- Live Demo: sayed-nada-portfolio.vercel.app.

EDUCATION

Bachelor of Science in Computers and Information

Expected: July 2026

Sinai University, Ismailia, Egypt | GPA: 3.0 / 4.0 (Very Good).

UI/UX & DESIGN PROJECTS

AquaSmart App UI (Figma)

October 2025

Designed high-fidelity mobile application layouts mapping real-time aquaculture telemetry dashboards, alert warnings, and mobile chatbot screens.

Skill Swap Hub UI (Figma)

January 2026

Developed comprehensive web design systems, responsive grid layouts, and interactive UI mockups for peer-to-peer student skill onboarding and matchmaking.

Food Delivery App UI (Figma)

May 2025

Prototyped a sleek mobile food ordering delivery flow using clean hierarchy, custom cards, and animated checkout pages.

CERTIFICATIONS

- UI/UX Design Specialization - Edraak (2024).
- JavaScript - Mahara-Tech (2024).
- Learn HTML & CSS - Mahara-Tech (2023).

LANGUAGES

Arabic: Native.

English: Professional Working Proficiency.
